SKILLS

Languages: C, C++, Python, JavaScript

Web: HTML, CSS, React.js

Databases: Firebase, MongoDB

Tools: AutoCAD, Proteus, Octave, Kali Linux, VS Code, Git/GitHub, Figma

SOFT SKILLS

Teamwork and leadership

Critical thinking and decision-making

Problem-solving and communication

AREAS OF INTEREST

Cyber Security

Data Structures and Algorithms (DSA)

Game Development

LANGUAGES

English, Marathi, Hindi

SUMMARY

Dedicated third-year Electronics and Telecommunication Engineering student with a strong interest in emerging technologies. Eager to apply technical skills in real-world engineering environments through projects, internships, and team-based collaborations, with a goal of contributing to the development of advanced technologies.

EXPERIENCE

Frontend Developer Intern Aug 2025 – Jan 2026
Athang Robotics India Pvt. Ltd. Pune, India

Developing UI for **Human Density Detection**, a radar-based occupancy monitoring system.

Created dynamic dashboards using **React-Konva** with real-time charts via **Recharts**.

Integrated **Socket.io** for live sensor updates and improved frontend responsiveness.

Contributed to backend setup using **Firebase Admin SDK** for authentication and basic DB tasks.

PROJECTS

Monastery360 – Digital Heritage Platform Sem V
Full-Stack Web Application React.js, MongoDB

Built UI components for 360° monastery tours and optimized rendering for combined map and 3D views.

Developed login flows, reusable UI screens, and contributed to backend + Firebase auth integration.

Tech stack: React.js, Node.js, MongoDB, Leaflet.js, Firebase.

UniCampus Market Sem IV
Full-Stack Development React.js, Firebase

Developed buy/sell platform with authentication, product listings, and real-time updates for campus users.

Implemented Firebase-based user authentication for managing product and user data.

FoodLink Website Sem III
Front-End Development HTML, CSS, Node.js

Designed responsive UI for a platform connecting food donors with NGOs.

Assisted with basic page routing and form handling.

Temperature Sensor PCB Sem II
Hardware Project PCB Design & Soldering

Created PCB-based temperature sensing system through circuit design and soldering.

POSITIONS OF RESPONSIBILITY

PICT ACM Student Chapter: Volunteer (Pulzion 2024), Content Lead (Pulzion 2025).

PICT Cybercell: Council Member, Red Team Head.

PICT DebSoc: Active Member.
