Professional Summary

Final-year B.Tech student with hands-on experience in REST API development using **Golang, front-end web development (HTML, CSS, JavaScript), and simulation based control systems**. Skilled in IoT and automation concepts with strong interest in building smart energy monitoring and industrial communication solutions. Seeking an entry-level role to apply technical skills in real-world engineering and software projects.

Technical Skills

• Languages:	Python, Golang, HTML, CSS, C, C++
• Tools/Software:	AutoCAD, MATLAB/Simulink, PLC
• Frameworks & Libraries:	RESTAPI, Pandas, NumPy, React
• Databases:	MySQL, MongoDB,
• Embedded System:	Arduino/UNO, Raspberry Pi
• Platforms:	Windows, Web-based systems
• IDEs:	Pycharm, Visual Studio Code
• Core Technologies:	MircoServices, IoT, Modbus (TCP/RTU), Networking Basics, Automation & Control Systems, Power System Simulation.

Professional Experience

Unicore Aiminds Pvt. Ltd. <i>Software Developer Intern</i>	Pune, Maharashtra, India <i>July 2025 – Jan 2026</i>
--	--

- Developing a Python-based Modbus Master application to communicate with Modbus devices via Serial (RS-485/RS-232) and Modbus TCP/IP.
- Designed features like device scanning, read/write registers, real-time data monitoring, and error handling.
- Focused on creating a user-friendly and reliable tool for industrial communication and testing.
- Worked on engineering and software-based tasks during internship, supporting ongoing technical projects and documentation.
- Assisted in developing and testing technical modules related to IoT / automation / control systems.
- Collaborated with team members to understand requirements, troubleshoot issues, and improve workflow efficiency.
- Gained practical exposure to industry-level work culture, problem-solving, and implementation practices.

Key Project and Highlights

- **REST API Development (Golang) – Development Work**
 - Built RESTful APIs using Golang, including routing, request handling, and API testing.
 - Worked on integration and data flow between backend services and web front-end.
- **Responsive Sneaker Website Design (HTML, CSS, JS)**
 - Contain sliding Images with the Swiper Library.
 - Compatible with all mobile and with a beautiful and pleasant user interface.
- **Wind Turbine LVRT Control using De-loaded Operation – Simulation Project**
 - Performed simulation work on **Low Voltage Ride Through (LVRT)** performance of wind turbines using de-loaded operation.
 - Studied control behavior during voltage dips and analyzed system response for stability improvement.

Education

G. H. Raisoni College of Engineering & Management <i>Bachelor of Technology (B.Tech), Electrical Engineering</i>	Pune, Maharashtra, India <i>Nov 2022 – June 2026</i>
--	--

Achievement

- **IBM:** Verified Achievement from IBM(**Enterprise data science, Getting Started with Enterprise Data Science**).
- **IIT Bombay:** Spoken Tutorial Project(**Arduino Training, Advanced C++ Training**).
- **NPTEL:** Enhancing Soft Skills & Personality.
